ILLVSTRI ET GENEROSO VIRO FRANCISCO BOVRZOLLIO, EQVITI AVRATO, BA-

roni de Baurepos, Domino in Bourzoles, Berbieres, Roſignac, Dauignac, Caſſaide, &c.

PRODIERAT in lucem ante biennium ſub meo nomine tractatus de Topographia Romana: in quo non ſolùm veteris Vrbis typū videndum Lectoribus propoſui cùm ſuis vicis, inſulis, regionibus, & illuſtrioribus ædificijs, tam publicis quàm priuatis; ſacris & profanis, ſed etiam nouæ Vrbis (qualis hodie ſpectatur) deſcriptionem ſatis exactam inſerui tam ſcripto, quàm pictura, ratus hanc meam operam non mediocriter conducere ijs, qui Romam venturi ſunt: qui tanquàm manu ducti, poterunt ſine difficultate ſingula, quæ in tanta tamque celebri Vrbe notatu digna ſunt, perſpicere. Et hic meus conatus tam ijs qui in Vrbe degunt, quàm peregrinis viatoribus iudicatus eſt vtilis. Non enim omnes ciues exactè norunt quæcunque in ea ciuitate domibus priuatorum aſſeruantur, aut publicè videnda propoſita ſunt: Et ſi ea norint, multas tamen fabulas ſuis narrationibus immiſcent, tam falſas quàm ridiculas. Vt exempli gratia: Pyramidem illam ad portam S. Pauli mœnibus adhærentem dicunt Rhemi & Romuli eſſe ſepulchrum. Inſcriptio tamen illa, quæ tanti ædificij continetur fronte, oſtendit C. CESTII VII. Epulonum, vel potiùs Collegij Epulonum Sacerdotum fuiſſe conditorium.

Duo illa templa rotunda in foro Romano SS. Coſmæ & Damiano ſacrata, aſſerunt Remo quoque & Romulo ab antiquis dicata fuiſſe. At certum eſt id eſſe falſum, ſed fuiſſe delubra Caſtoris & Pollucis.

Montem Teſtaceum vulgus credit conflatum eſſe ex congerie vaſorum fictilium, quibus peregrinæ prouinciæ annuas tributorum pecunias Romam in ærarium importabant: Et ideo

montem illum dici monte d'ogni terra, quòd ea vaſa in rei memoriam eò ſint proiecta. Alij exiſtimarunt molem illam coaceruatam fuiſſe ex fragmentis fideliarum, quæ à figulis reijciebantur in eum locum, ne alueum Tiberis, ad quē habitabāt, impedirent. At ego alibi oſtendi Circum Olympicum, in quo ſeſe iuuentus curſu, ceſtu, equitatione & lucta exercebat, illic fuiſſe: ideo non potuiſſe figulis committi, vt eum in locum excrementa ſuarum officinarum reijcerent. Quodque experientia docet vrnas illas nouas eſſe, integras, & ad mortuorum cineres recondendos accommodatas. Quod meo tempore diligēs harum antiquitatum ſcrutator Antonius Lafrerius Typographus detexit.

Quid dicam de fabuloſa narratione plebis, cur aqua Tiberis Romæ ſit potabilis, & ciſternis clauſa ad multos annos ſeruetur incorrupta: Supra Romam verò breui ſpatio temporis putreſcat. Miraculum hoc effictum cum admiratione recenſent, ante aliquot ſæcula Patricios diſſenſione facta cum Populo, non permiſiſſe plebem haurire aquam ad potum neceſſariam ex puteis domeſticis: Ira pauperes dira ſiti vexatos ad ſancti Pontificis pedes gemebundos procubuiſſe, rogantes vt eius auctoritate reconciliarentur cum Optimatibus: id cum Pontifex impetrare non poſſet, Vrbanis omnibus puteis maledixit, & Tiberinas aquas conſecratas reddidit potabiles. Ex eo tempore puteorum lymphæ ſemiſalſæ, inſipidæ, & putidæ factæ ſunt in hodiernum vſque diem: Tiberinæ verò ſalubres & ſapidæ: & ex quibus omnes bibunt tā nobiles quā plebeij. Specioſa fabula ſcilicet, & nugis plena: cum certū ſit ex mixtione Anienis nitroſi fluminis Tiberinam aquam à putredine vindicari, & ad lōgum tempus ſaluberrimā cōſeruari.

Eiuſmodi plurima recitãtur de ſtatua illa equeſtri ahenea M. Aurelij Antonini, quæ erecta eſt in area Capitolina ſub Ara Cœli: vulgus ait fuiſſe decreto Senatus poſitam cuidam Ruſtico, qui dū Roma à Gotthis obſideretur multa feciſſet ad Vrbis liberationem, & barbarorum repulſionem. Eiuſmodi quoq; recitantur nō ſine riſu hiſtoriæ de infinitis ſtatuis coloſſæis, quas Gigantum fuiſſe credūt: de vaſtis illis lapidum molibus Amphitheatri, quæ humeris Angelorum ſuſtentatæ ſunt impulſæ à Dæmone, dum Pontifex in ſupplicationibus publicis, ex Laterano templo ad S. Petri fanum, quod eſt in Vaticano, religioſè procederet geſtans manibus ſacramentum Euchariſtiæ.

Quæ nō dicuntur de locis illis ſubterraneis, quæ Catacumbæ vocantur, in tēplis ſanctorū Sebaſtiani & Laurentij: de Sepulchro

chro illo Porphyritico Conſtantiæ Cõſtantini Magni filiæ, in tẽplo diuæ Agnetis: & id vulgariter Bacchi dicitur conditoriũ. Quę ſi ſtatuiſſem ſingula deſcribere, duplicẽ nugarũ Iliadẽ contexerẽ. Nihil certè eſt, quod à rerum imperita plebe nõ publicetur fabuloſe: Quibus dum peregrini aures præbent attentas, faſtidium illis auſcultandi naſcitur, cùm non poſſint verum à falſo diſcernere: nugas tamen has commentitias agnoſcunt.

Hæc fuit cauſa, cur dum Romæ eſſem, breuem illam Vrbis deſcriptionẽ trium diætarũ conſcripſerim in gratiã eorum, qui ex diuerſis Italiæ Academijs ad Vrbem perluſtrandã veniebãt: exiſtimauiq́; non parùm conducere ijs, ſi omnia quæ tã publicè, quàm priuatim habentur ab antiquitate nobis relicta, ordine concinno enumerarẽ, quæ ſingula eſſent, quod cuiuſq; ſignum, cuius Dei, cuius viri aut mulieris, cuius artificis: quæ ædes ſacræ, cui Numini deſtinatæ, à quo, & quo tempore dedicatæ, quando demolitę aut reſtauratæ: Theatra, Thermæ, balnea, circi, poticus, arcus triũphales, fora, põtes, fontes, aquæductus, curiæ, pyramides, obeliſci, columnæ, & alia eiuſmodi, quæ vel integra adhuc ſuperſunt, vel ſemiruta, aut ſolo æquata apparẽtibus adhuc aliquibus veſtigijs: ex quibus ædificiorũ ſepulchrorũq́; præſtãtia & ſumptuoſitas, magnitudoq́; & opulẽtia Romani Imperij iudicari põt. Hæc omnia curioſo homini (ſi præſens ea ſpectet aut abſens ſi legat) iucunditãtẽ nõ mediocrẽ adferet: ſed maximè ſpectatori, ad quem vberior fructus accedet: dũ attẽtè conſiderabit venerãdæ illius antiquitatis reliquias admirãdas, artificũ induſtriã inimitabilẽ in ſculpẽdis & poliẽdis illis marmoribus tã duris, vt omnẽ chalybis aciẽ retundat: quod noſtri lithotomi quotidie experiũtur, in Ophite, in Baſalte, in Porphiro, lapide Aethiopico, & Lydio, alijsq́; marmoribus Oriẽtalibus, in quibus exſcindẽdis & ſculpẽdis ſine fructu ſe quotidie enecãt. Videmus tamẽ nihil eſſe tam difficile, ꝙ ingenioſi illi ſculptores antiqui nõ potuerint pręſtare. Quãtùm mirabimur, dũ ſpectamus & meritò miramur, qua ſedulitate, quibus machinis vſi ſint in vaſtorũ illorũ lapidũ molibus ſubleuãdis? in erigendis obeliſcis tanti põderis, qui ferè omnes ex Aegypto, & rupibus Aethiopicis exſciſſi, impenſis incredibilibus Nilo ſecundo perducti ſunt Romã. Hæc quicunq; diligẽtius contẽplatur, attonitus hærebit, neſcius qua arte, quo ingenio tã vaſta onera potuerint moueri, quo modo extolli integra, & per tot ſæcula conſeruari. Quod tamẽ ante paucos annos docuit fieri poſſe Architectus, ille nobilis Dominicus Fontanus Comenſis, qui Sixti VI. P. M. hortatu

obeliſcum vaticanum ſuo loco motum, tranſtulit in mediam illam plateam, quæ templo S. Petri, & palatio Pontificum imminet. Illum ſanè meritò noſtri ſæculi nouum Archimedem poſſumus compellare. Dolendum eſt alios duos obeliſcos ex eodem Thebaico vel Ophite lapide factos (qui ad Auguſti Mauſoleum fuerant olim adplicati, meoque tempore rupti in via Flaminia iacebant) non remanſiſſe integros: potuiſſet magnus iſte vir iiſdem conatibus eos rurſus erigere, & locis celebribus collocatos proponere ſpectandos tam ciuibus, quàm aduenis: vt ille vtrumque eleuauit cimento tenaci fragmenta compingens: vnumque non procul à templo S. Mariæ populi, alterum ad ædes Lateranas tranſtulit.

In his omnibus colligendis & delineandis, non ſine laude cum me inſudaſſe, meosque labores doctiſſimis quibuſque non diſplicuiſſe animaduerterem, ex eorum ſuaſione & hortatu Topographiæ adiungere ſtatueram inſcriptiones omnes, quæ marmoribus antiquis inſculptę paſſim in Vrbe videntur. Iamque duo prima volumina in publicum prodierant, bonorum omnium applauſu non mediocri: reſtabat adhuc pars maior cælanda, quæ morte ingenioſi viri Theodorici Bryij ſculptoris Leodienſis imperfecta relicta erat. Eamque ſuppreſſam reliquiſſem, niſi amicorum inſtinctu eidem manum poſtremam imponere cogerer. Cum etiam ad hoc opus perficiendum duo Theodori Bryij filij Theodorus & Iſrael parentis induſtriam ſecuti, & nō minus propenſi ad publicam vtilitatem promouendam, ad hoc ſtudium vltrò ſuam operam mihi obtuliſſent: Quorum beneuolentiam vt amplector, ita quoque mihi fuerit gratiſſimum eorum auxilio quod reliquum eſt abſoluere.

At ne in inſtituto progrederer, mouerat me hoc vnū, quod tam multi graues viri manum iam antea huic operi adpoſuiſſent, præclaramque laudem inde reportarant vt Cyriacus Anconitanus, Marullus, Mazochus, Apianus, Amantius, Errizus, Guicciardus, Porcatius, Sigonius, Mercurialis, Honufrius, Lazius, Goltzius, Brizonius, Torrentius, Iulius Roſcius, Antlafrerius, Salamanca Hier, Occo, Octauianus & Iacobus Stradę, Gabriel Simeon, Fonteius, & Iacobonus: Quibus acceſſerunt Paulus Knibius qui Romana omnia manuſcripta habuit, & maiorem partem eorum quæ videntur in Italia. Merula excepit Gallicanas inſcriptiones, Pigonius Viennenſes Allobrogū, idem Cnibius & Ricardus Arelatenſia. Paradinus Lugdunenſia, Huttichius Moguntiaca, Velſeri

mii in

Vindelica, Mercator Colonięſia, Viuianus Cliuenſia: aliję; plurimi in hoc genere ſtudij egregiam nauarunt operam. Sed inter cæteros opus laude digniſſimum ad publicam vtilitatem ediderunt viri doctiſſimi Carolus Cluſius, Metellus & alij, qui Martini Smetij collectiones correctas, & à Iuſto Lipſio eleganti ſupplemento auctas prælo ſubiecerunt. Poſt quorum conatus ſuperfluum mihi viſum eſt eidem operi manum adponere, ne idem ſcribere, & cognita omnibus obtrudere iudicarer. Quid enim poſſem melius, quid doctius præſtare, quàm quod tot tantique viri præſtiterunt? Sed maximus & eruditiſſimus Gallorum celebris ille Ioſephus Scaliger dicitur Smetiana in manus ſumpſiſſe, & correctiora publicare velle, additis etiam Gallicis inſcriptionibus, quæ non admodum minori numero eſſe dicuntur, quàm Smetianæ. Eas tradiderat Hieronymo Commelino illuſtriſſimi Principis Friderici IIII. Electoris Palatini typographo Heydelbergæ, viro docto & erudito: qui quia ſuperiore anno diem poſtremum obijt, Scaligeranum volumen commiſſum eſt clariſſimo viro Ioanni Grutero I. C. Palatino Conſiliario, in quibus componēdis & adornandis totus nunc verſatur. Neq; tam excellens opus potuiſſet in manus venire alterius, qui maiori diligentia, exquiſitiore iudicio polleret.

Hæc dum conſiderarem exactius, & abſolutos aliorum labores mihi ante oculos proponerem, mirum nō eſt, me incepto labori ſuperſediſſe, ne tantos auctores non æquis ſequerer paſſibus. Sed ipſe Cruſius, & Glutterus Meliſſusque viri acutiſſimæ cenſuræ, puſillanimitatem meam ridentes exhortationibus impellunt ad negotium promouendum: Rationemque hanc addunt, quod literatis meæ inſcriptiones nihilominus placere poterunt (licet eadem in medium proferam, quæ & alij) quod cum ſcriptis lapidum formas, ſigna, & figuras adpinxerim: Et id neminem ante me feciſſe compertum eſt præter Lafrerium, qui centum ad ſummum ædificia, & ſepulchra deſignauit. Roſcius circiter ducenta. Sed Roſcij mihi publicanda commiſſa ſunt: cùm vir optimus à Pontifice Legatus miſſus ad Rhœtos in via defunctus eſt Mediolani, & in æde Sancti Carpophori ſepultus.

Si igitur promoueam cœptum ex ſententia doctorum, non mihi, opinor, vertetur vitio: cùm eorum iudicium legis vice obſeruem & ſequar. Quòd ſi meus conatus minùs reſpondeat multorum expectationi, in arbitrio erit lectorum probare mea ſcripta, vel negligere. Scio tamen omnibus

bus.

bus non diſplicitura; ſi ea æqua librent trutina, neque œſtro abſurdæ reprehenſionis,& moroſæ cenſuræ ferantur, qualium hodie numerus nimius eſt. Nihil enim probant plerique, niſi quod ipſi commentati ſunt. Et quamuis rei illius quam reprehendunt, ſint ignatiſſimi, non deſinunt tamen in eam ferre cenſuram apud ſui ſimiles. Noſtro hoc malo difficilique ſæculo ſciolis iſtis moris eſt omnia mordere, expungere, improbare,& irridere, ſimiarum more, quæ nudis licet ſint natibus, aliorum tamen defectus notant. Ita hi homines, quicquid alienorum Caborum nanciſcuntur, ea ſtatim ſupercilioſe examinant, librant, trutinant, malicioſe ſingulis inhærentes, vt in puncto vel virgula inueniant, quod correctione dignum videatur. In eo ſarcaſmis, ſibilis, exploſionibus petulanter ad inſaniam vſque ſibi indulgent nodum in ſcirpo quærunt: Et liuore deleri, tantum ſibi demi putant quantum alijs tribuitur. Ideo ringuntur intra ſe, & lippitudine mala laborantes, iubar ſolis ferre nequeunt, ita iſti ad alienam gloriam cœci percelluntur, ac dolore malo tabeſcunt: data opera leuiter prætereuntes, quæ laude digna eſſe, non poſſunt inficiari, & inſiſtentes iis, in quibus vel mediocre vitium comperitur. Malis his animabus ſufficit reprehendere,& vituperare aliena, laudare neminem. His ſatisfacere mei non eſt inſtituti. Sufficit mihi ſi mearum lucubrationum Iudicem vnum aut alterum idoneum nanciſcar, qui mihi mille malorum vice fuerint.

At cum in his antiquitatis reliquijs progreſſurus ſim, ex omnibus noſtratibus te vnum delegi, Heros clariſſime, cuius patrocinio meum librum committam, cum inter Gallos generis ſplendore, animi candore, & literarum ornamento nulli ſis ſecundus: virtutes ſane in Gallia ſatis raræ, apud nobiles potiſſimum, qui bonarum literarum, & diſciplinarum liberalium cognitionem non admittunt, tanquam illuſtribus indignam ſtemmatibus: ideo pauci inter nobiles inueniuntur qui libris incumbant. Militiæ exercitijs tantum dediti, reliqua ad ſe pertinere non arbitrantur: quiq; in iuuentute aliquo modo inſtituti fuerunt in ingenuis ſtudijs, adultiores redditi ea diſſimulant, tanquam grandi vituperio digna: hocque ſarcaſmo notant eruditos, eos geſtare gladios ſuos in auribus, redolere caracallam togam, ſapere ſcholaſticum calamum, & eiuſmodi ſcurrilia ſcommata, quæ ab aulicis iſtis Thraſonibus effutiuntur: quorum ſuperba iactantia, & ſtoliditas omnibus ridicula eſt & odioſa. At tibi non eadem animo inſidet opinio, Tu Muſas, tu doctrinam, quo par eſt honore,

proſequeris,literatos amas, foues,& defendis. Meque antea non viſum ſumma beneuolentia complecteris: quæ me ratio cogit vt aliquo officio me gratum erga te præſtem. Cumque vt tua eſt magnitudo,& opulentia,tenuibus meis iuuari facultatibus nequeas, neque optes,munus hoc literarium tibi offero. Tu, vt bonus audis,eximiæq; & humanitatis & comitatis,boni conſules id quodcunque eſt,quod reuerenter offert tuæ virtuti.

Tui obſeruantiſſimus ſtudioſiſſimusq,
Ioan. Iacobus Boiſſardus.

AD ILLVSTREM ET GENEROSVM HEROEM FRANCISCVM BOVRzollium, Equitem auratum, & Baronem de Beauſepos I. Boiſſardus.

PRAETERITA antiquis qui neſcit tempora ſæclis,
Et priſcas vecors negligit hiſtorias;
Dextro oculo lippus læuo cæcutit: & amens
Ad pueri fatuum vertitur ingenium.
Nil ſolidi aut certi meditatur: friuola mente
Concipit, & nugas futilis ore parit.
Omnibus obiectis impingit, & hæſitat: omnis
Expers conſilij nil ratione gerit.
Vt ſine remigio qui mota per æquora cymbam
Credit ſe & tumidis non benè ſanus aquis;
Effugere obiectas nequit eluctando procellas,
Murmura veſani ferre nec alta ſali.
Huc illuc miſerè ſpumoſis truditur vndis,
Donec ſit cæco turbine merſa ratis.
Non minus ignaræ peragit qui tempora vitæ,
Nec naſo cernit longiùs ipſe ſuo,
Dicetur meritò ſtultorum de grege: quorum
Nec Sophia adiutrix, nec comes eſſe poteſt.
Hi tantùm curuo terram proſcindere aratro
Sunt digni, & dura cogere farra manu.
Ridiculam ſparſa faciem præferre farina
Tectam, & verſatis obdere flabra molis.
Vel cophinis lectos ex arbore condere fructus:
Aut ſude inhærentes enucleare nuces.
Ruri hoc conueniens animal neque Curia curat,
Vt lites cultò terminet eloquio.
Nec lateri adſtabit Prætoris, vt ante tribunal
Exponat dederit quæ ſacra iura Themis.
Sed cuius ſanctæ polierunt pectora Muſæ,
Quem rerum exercet ſedula cognitio,

Hunc

Hunc adhibet rebus Res publica docta gerendis:
Hunc ob virtutes iure Senatus amat.
Aſſeſſor Regum belloq́; & pace ſecunda

Is Patriæ iuſtis fines defendit in armis

Omnia diſcernit dum prævidet omnia prudens:
Nec dubijs rebus prouidus obruitur.
